Be Aware of Fraud Scams

Scammers target everyone, but most of all our elderly population. They can be very persuasive. Please do not let them intimidate or scare you into giving away your money.

Don't give your personal or financial information in response to a request that you didn't expect. Legitimate organizations won't call, email, or text to ask for your personal information, like your Social Security, bank account, or credit card numbers.

Resist the pressure to act immediately. Legitimate businesses will give you time to make a decision. Anyone who pressures you to pay or give them your personal information is a scammer.

Know how scammers tell you to pay. Never pay someone who insists you pay with a gift card or by using a money transfer service. And never deposit a check and send money back to someone.

Stop and talk to someone you trust. Before you do anything else, tell someone — a friend, a family member, a neighbor — what happened. Talking about it could help you realize it's a scam.

If you think it might be a scam, please call the credit union or trusted family member before you send anyone your money.
